BACKGROUND INFORMATION:

Every year since 1963, the President of the United States has issued a proclamation announcing that the country should honor and recognize National Small Business Week.

Local Small Businesses keep their tax dollars within the local economy, helping to improve their community as a result. Local Small Businesses tend to buy locally as well, thereby pumping more of the profits from their economic activity back into the community that their chain store counterparts, sparking economic development.

Small Businesses are job creators, and most of those jobs are local. Rather than having to commute to another city, employers work closer to home. Supporting local businesses also helps the community. When a community has a vibrant commercial center, it also creates opportunities for those workers to shop at other small businesses and also enhances the tax base for the County.

Small Business Week is meant to highlight the importance of entrepreneurs and small business owners across the United States. During this week, we recognize the efforts of small businesses and encourage supporters to engage and shop with their establishments.

RESOLUTION:

WHEREAS, America's progress has been driven by pioneering Small Businesses who think big, take risks, and work hard; and
